CONTENTS

Volume 6, Issue Nos. 1–6

International Journal of

ADAPTIVE CONTROL AND SIGNAL PROCESSING

Issue No. 1, January 1992

Linear Adaptive Control of a Single-tether System: M. E. Greene, J. T. Carter and J. L. Walls 1

Robustness of VS-MRAC with Respect to Unmodelled Dynamics and External Disturbances: R. R. Costa and L. Hsu 19

Passive Least-squares-type Estimation Algorithm for Direct Adaptive Control: B. Brogliato and R. Lozano 35

An Adaptive Tracking Problem: D. E. Miller and E. J. Davison 45

BOOK REVIEWS 65

Issue No. 2, March 1992

A New Robust Model Reference Control with Improved Performance for a Class of Multivariable Unknown Plants: C.-J. Chien and L.-C. Fu 69

Model Reference Adaptive Control Applied to Electrical Machines: H. Unbehauen and U. Keuchel 95

Robust Adaptive Control of Robotic Manipulators without the Regressor Matrix: J. Yuan and Y. Stepanenko 111

TECHNICAL NOTE

Self-tuning Multivariable Pole Placement Control of a Multizone Crystal Growth Furnace: C. Batur, R. B. Sharpless, W. M. B. Duval and B. N. Rosenthal . . 127

Issue No. 3, May 1992

Special Issue: Adaptive and Expert Control, A Russian Perspective
Guest Editors: S. Bittanti and A. Fradkov

EDITORIAL 139

PLENARY PAPERS

The Method of Recursive Aim Inequalities in Adaptive Control Theory: V. A. Bondarko and V. A. Yakubovich 141

A Discussion of Model Accuracy in System Identification: L. Ljung 161
Adaptation and Robustness in Control Systems: V. M. Kuntsevich 173
Sensitivity, Robustness and Efficiency of Adaptation: A. A. Pervozvanski . . . 183
Evolution of Intelligent Control in Adaptive Systems: A. V. Timofeyev and R. M. Yussupov 193
Adaptation Problems in Expert Systems: V. I. Gorodetsky 201
Speed Gradient Adaptive Control Algorithms for Mechanical Systems: A. L. Fradkov and A. A. Stotsky 211
INVITED PAPERS
Effective Identification Algorithms for Adaptive Control: S. Bittanti, M. Campi and F. Lorito 221
Adaptive Control of SISO Plants with Unmodelled Dynamics: G. Bartolini and A. Ferrara 237
SHORT PAPERS
Estimation of Convergence Rate for Robust Identification Algorithms: O. Yu. Kul'chitskiy and A. E. Mozgovoy 247
The Kalman–Yakubovich Lemma for Non-stationary Systems and its Applications: A. V. Savkin 253
Adaptive Control of a Biped Robot Walking Across a Horizontal Plane: S. L. Shishkin 259
A Stable Gradient Algorithm of Adaptation Using an Output Signal: V. O. Nikiforov 265

Issue No. 4, July 1992

Special Issue: Adaptive Non-linear Control
Guest Editors: L. Praly, R. Marino and I. Kanellakopoulos

EDITORIAL 271

Adaptive Non-linear Control of Fed-batch Stirred Tank Reactors: G. Bastin . . 273

Preliminary Results about Robust Lagrange Stability in Adaptive Non-linear Regulation: Z. P. Jiang and L. Praly 285

A Comparative Study of Normalized and Unnormalized Tuning Errors in Parameter Adaptive Control: A. S. Morse 309

Error-based Adaptive Non-linear Control and Regions of Feasibility: A. R. Teel . 319

Adaptive Regulation: Lyapunov Design with a Growth Condition: L. Praly . . 329

Adaptive Observers for a Class of Multi-output Non-linear Systems: R. Marino and P. Tomei 353

Adaptive Non-linear Control with Incomplete State Information: I. Kanellakopoulos, P. V. Kokotovic and A. S. Morse 367

Adaptively Controlling Non-linear Systems, Using Trajectory Approximations: H. B. Penfold, I. M. Y. Mareels and R. J. Evans 395

Issue No. 5, September 1992

Enhancing Optimal Controllers via Techniques from Robust and Adaptive Control: J. Imae, L. Irlicht, G. Obinata and J. B. Moore 413

Identification of a Class of Dynamic Errors-in-variables Models: W.-X. Zheng and C.-B. Feng 431

Adaptive Instrumental Variable Methods for Frequency Estimation: A. Kangas, P. Stoica and T. Söderström 441

The α-adaptive Performance in Pole Assignment Adaptive Controller Design: L. Wang and D. H. Owens 471

Functional Learning in Signal Processing via Least Squares: J. E. Perkins, I. M. Y. Mareels, J. B. Moore and R. Horowitz 481

Discretization of Analogue Filters via H_∞ Model-matching Theory: H. T. Toivonen . 499

BOOK REVIEWS 515

Issue No. 6, November 1992

On Adaptive Control of Fedbatch Fermentation Processes: I. Queinnec, B. Dahhou and M. M'Saad 521

Hybrid Adaptive robust Control for a Robot Manipulator: D. M. Dawson, Z. Qu and F. L. Lewis 537

Frequency-filtering Zoom: J.-L. Zarader, M. Garnier and M. Nicollet. 547

Multi-element Array Signal Reconstruction with Adaptive Least-squares Algorithms: R. Kumar 561

Adaptive Control of Non-completely Controlled Mechanical Systems using Dynamic Feedback Linearization and Estimation Design: F. Boustany and B. D'Andréa-Novel 589
